

In Your Eyes

Dawn Richard

On a street corner I see you
On park bench someone sleeps
My brothers and sisters redemption's on its way
How can you lose a fight that you make?

'Cause in your eyes
You chasing planes, in your eyes
Do you feel weightless, in your eyes
Don't lose the passion, in your eyes
You made love famous, in your eyes
I feel the dream, in your eyes
It's laced in your eyes
In your eyes, I see the dream
In your eyes
It's laced in your eyes

Mothers and fathers
We're flying with no pilot to lead the way
We need direction to land in a clear space
Or we will crash
End up in flames
But I know you won't let us go

'Cause in your eyes
You chasing planes, in your eyes
Do you feel weightless, in your eyes?
Don't lose the passion, in your eyes
You made love famous, in your eyes
I feel the dream, in your eyes
It's laced in your eyes
In your eyes, I see the dream
In your eyes
It's laced in your eyes

In your eyes
You chasing planes, in your eyes
Do you feel weightless, in your eyes?
Don't lose the passion, in your eyes
You made love famous, in your eyes
I feel the dream, in your eyes
It's laced, in your eyes
In your eyes, I see the dream
In your eyes
It's laced in your eyes
