

## Intro

Dawn Richard

Shadow of an army  
We never saw us end their prides  
Two busy eyes in the clouds  
Never gave a thought about you  
I know why you can hang your head so low  
When the lies are weighing you down  
What are fighting for?  
I need you to come out of the dark

Have anyone to break you out  
Don't you know that your soul will be invincible?  
Don't you know you can hear the incredible?  
No way I'm gonna let you lose

Just that says I'm all in now now  
To me say two hands are hardly fights  
Walks into the flames then talk tonight yea

So get ready for war, man get ready for war  
Put your battle suit on, this is chain and beyond  
We can never be touched, ain't no stopping us  
Just to aim it up in the stars that go

I can feel the air in the hearts tonight  
Oh it's tonight (in the hearts tonight)  
(In the air)  
We've been waiting for this chance and now it's ours tonight  
Ours tonight, yea

So get ready for war, man get ready for war  
Put your battle suit on, this is chain and beyond  
We can never be touched, ain't no stopping us  
Just to aim it up in the stars that go

(Baby, I'm ready)  
I can feel the air in the hearts tonight  
(You give us a fighting chance)  
We've been waiting for this chance and now it's ours tonight  
Ours tonight, yea

So get ready for war, be not afraid  
Fall in line  
So get ready for war  
We gotta fight  
So get ready for war  
We gotta fight for our right to love  
So get ready for war  
We gotta fight oh  
Just war now  
So get ready for war  
So get...  
So get ready for war  
So get ready for war  
So get ready yea  
So get ready for war  
Get ready for war
