

# Levitate

Dawn Richard

See I'm on a mission  
Tryna elevate ya  
Show you things that you ain't never seen  
I see your potential  
You can really go far  
Baby all your niggas show whips  
I can really take you there if you want to  
Higher than you ever been baby  
Just let the smoke clear, let me take the other then  
I'll take you farther than you ever been

Bet you I'll get you flying now you'll see  
No ceilings when you are fucking with me  
Where we going ain't for everybody  
This world of violence, no diamonds like me

Aha  
Okay, we bout to levitate  
We bout to levitate  
This is that song you levitate  
This is that song when you can't get out yo seat, you can't feel  
your face  
Going past higher, we plankin in space  
Levitate (Levitate
