

Me Myself And Y

Dawn Richard

You never take me seriously, seriously
You never give me what I need, I need
I'm always spending time alone, you'd rather be out alone
Throwing up keys, loosing too sick of ...I smoke cause of you
Don't stick around to hear your apology
I got a new best friend and her name is me

Me, myself and Y, I just think of this for the first time
Me, myself and Y, did I ever loved you cause I'm
Better off alone, better off alone, better off,
Better off alone, better off alone, better off,
Me, myself and Y, did I ever think you were mine?

I took it's nothing literally, but you didn't really wanna believe
That somebody will hurt you baby, baby
Love you more than Universe, love you more than Universe
Love you pass all your , love you pass all your
You ever do your own thing
But guess what, 2 can play that game

Me, myself and Y, I just think of this for the first time
Me, myself and Y, did I ever loved you cause I'm
Better off alone, better off alone, better off,
Better off alone, better off alone, better off,
Me, myself and Y, did I ever think you were mine?

Better off alone, better off alone, better off,
Better off alone, better off alone, better off,

Me, myself and Y, did I ever think you were mine?
did I ever think you were mine? did I ever think you were mine?
Me, myself and Y, did I ever think you were mine?

Me, myself and Y, I just think of this for the first time
Me, myself and Y, did I ever loved you cause I'm
Better off alone, better off alone, better off,
Better off alone, better off alone, better off,
Me, myself and Y, did I ever think you were mine?

Cry cry, cry cry, cry, cry, cry for the butterfly, cry, cry, cry
Cry cry, cry cry, cry, cry, cry for the butterfly, cry, cry, cry
Cry cry, cry cry, cry, cry, cry for the butterfly, cry, cry, cry
Cry cry, cry cry, cry, cry, cry for the butterfly, cry, cry, cry

Cry for the butterfly, cry, cry, cry.
