

Meteors

Dawn Richard

It's falling from the sky, it's blazing every way
At first I didn't notice but it's obvious there
Yeah, it's obvious there
It's been a long time hoping I never saw it coming
I see it on fire anticipations burning like damn
It's burning like damn

You're love it's coming down like meteors, meteors
It's coming down like meteors, meteors, meteors, meteors

It's go down to my left, turning on my right,
Never... could light at the night like you do, do, do
Running but I like, scared but I never see another coming close
to the sky like you do, do

You're love it's coming down like meteors, like meteors
It's coming down like meteors, like meteors,
You're love it's coming down like meteors, like meteors
It's coming down like meteors, like meteors,
Ooh, ooh, ooh, oo-oo-oo-oo-oo-oo-oo ooh
Oo-oo-oo-oo-oo-oo-oo
