

Paint It Blue

Dawn Richard

Didn't mean to hurt her
Two shots I thought I got her
Love you never heard of
Sweetest kind of murder
Murder
Living to right
Try to leave the good life
We go on that dark side
Smoke one make it feel right

No love, No love, None, None, None, None
No love, No love, None, None, None, None
No love, No love, None, None, None, None
No love, No love

Even if I wanted too
I could not be with you
How did you
Paint it Blue

No alibi
Blackout no sunlight
Caught me on that dark side
Get it till it feel right
It's not right
Always fuck love, why try
Give my best, never that good love
Show me what your made of
Cause I lost what I give up

No love, No love, None, None, None, None
No love, No love, None, None, None, None
No love, No love, None, None, None, None
No love, No love

Even if I wanted too
I could not be with you
How did you
Paint it Blue

Our hearts can be as one
We are too different
We are too distant
But you keep holding onto love
The truth shattered
Staring back at you
Staring back at you

No love, No love, None, None, None, None
No love, No love, None, None, None, None
No love, No love, None, None, None, None
No love, No love

Even if I wanted too
I could not be with you
How did you
Paint it Blue
