

Renegades

Dawn Richard

I know you like it when I remind you that I'm yours
I push it on you real good, let the glitter fall
Let me decorate my love all on you, so everyone knows
I got my name on you, let me escape with you, on this trip or go,
trip or go

Where my renegade, renegade?
Where my renegade, ren-renegade?
Where my renegade, renegade?
Where my renegade, ren-renegade?

Renegade?
Where my renegade?
Where my renegade?
Where my renegade?

Run a-run away with you rene-renegade
Run a-run away with you rene-renegade
Run a-run away with you rene-renegade
Run a-run away with you rene-renegade

I'm coast to coast they know they fucking with a real one
But when there's two of us we rocking like an anthem
Spool like the fuel rolling in your engine
I got my name on it booming in your system

Where my renegade, renegade?
Where my renegade, ren-renegade?
Where my renegade, renegade?
Where my renegade, ren-renegade?

Renegade?
You're my renegade?
You're my renegade?
You're my renegade?

Run a-run away with you rene-renegade
Run a-run away with you rene-renegade
Run a-run away with you rene-renegade
Run a-run away with you rene-renegade

Run a-run away with you rene-renegade
Run a-run away with you rene-renegade
Run a-run away with you rene-renegade
Run a-run away with you rene-renegade
