Sands

Dawn Richard

Pictures on the walls, remind me of
The old shit that we were
Pictures on the wall, remind me of
That shit that we lost
It ain't right, but that's life

We knew it all, we were young
We were dumb, we way too young
We were young

We didn't know that everything will jump off now
We didn't know that everything progress now
We were young (we were young)

I shouldn't told em that I was crying and I was falling down
I didn't want to stay longer love was more important time
I didn't want go back to things had me feeling low
So I guess I gotta run away from the labels

(Here we go, here we go again)

Here we go, here we go again
We're too young to understand (we're too young to understand, we're too young)
Here we go, here we go again
We're too young to understand (we're too young to understand)
We're too young to understand
Hey now now now (hey now)
Hey now (hey now) hey now, we're too young to understand (we're too young to understand)
Love don't live here in these places with dark sand
We too young (we're too young)
We too young to understand (we're too young)

Hey now, say I keep singing
Hey now, hey hey now
You too young to understand
Life is like quick sand (we're too young)
You can fall if you not looking (we're too young)
Life is like glue (we're too young)
Young girl you, too young to understand (we're too young)
Life is like quick sand (we're too young)
Hey now, hey now young girl (we're too young)
Hey now young girl
