

Tyrants

Dawn Richard

Let me see your eyes
I wanna see them glow
I wanna see how far
How far it goes
Never be scared
Never understand
How far it goes
The light expands

This why I call you
I call you tyrants
(The light expands)
This why I call you
I call you tyrants

It'll always be said
Never understand
How far it goes
The light expands
We'll always be scared
Never understand
Just how it goes
The light expands

This why I call you
I call you tyrants
(The light expands)
This why I call you
I call you tyrants

This why I call you
I call you tyrants
This why I call you
I call you tyrants
