

I used to think that you was beautiful
But now sometimes I'm scared at just the sight of your face
It's like the monster that I thought was in my closet
Called my daddy and he scared him away
You're hanging out at night with the ghouls and goblins
Leaving me here all by myself
You used to be just like prince charming
Now you got me screaming for help

I used to think that you were pretty
I used to think that you were beautiful
You used to be just like a fantasy
But now it's just another horror picture
Cause your so ugly... ugly... ugly...

U.G.L.Y you aint got no alibi
You ugly yea yea you ugly...

I used to think that you were my knight and shining armor
Just as fine and I knew that you would stay...
And just when I thought I had my feet on the ground
I turned around and it's all up in the air...
Now it's beauty and the beast
And you were changing like the season
I suppose that's the rule
Make them look like Freddy Krueger
Sorry baby I can't do this no more

I used to think that you were pretty
I used to think that you were beautiful
You used to be just like a fantasy
But now it's just another horror picture
Cause your so ugly... ugly... ugly...

U.G.L.Y you aint got no alibi
You ugly yea yea you ugly...

All my ladies if feel me yea
Let me see you put your hands up high
If your in love with a stranger yea
Cause he turned into a different guy
Ugly... ugly... ugly... ugly
That's the rule
Make them look just like Freddy Krueger
Sorry baby I can't do this no more

I used to think that you were pretty
I used to think that you were beautiful
You used to be just like a fantasy
But now it's just another horror picture
Cause your so ugly... ugly... ugly...

U.G.L.Y you aint got no alibi
You ugly yea yea you ugly...
