

Warfaire

Dawn Richard

I fight a battle every day
Against discouragement and fear
Some fool stands always in my way
The path ahead is never good
I must forever be on guard against the doubts that skulk along
I get ahead by fighting hard
The fighting keeps my spirit strong

If a mirror showed your heart
Pieces would fall from you good
No more hiding in the dark
I see you for who you are
I can rearrange the parts
Take the temper of the gods

You were changing faces, switching like a dream at night
(Switch them like a...)
You can't even tell the truth to save your fuckin life
(I am fuckin you)
Would've gave my life for you, would've paid the price
(I would've gave my life for you)
When wagered all for you I never thought I'd die

Won't surrender to your arms
No peace on the alarm
So more reasons to hold on

Now who's in your army?
Instead of shooting from the flame
Now you're crying softly
You can see the bullets in the air
Wanted you to love me
But you never seem to care

Warfaire (warfaire)
All good (it's all good)
Right here, what you wanna do (I ain't scared)
Warfaire
All good (it's all good)
Right here, what you wanna do
You wanna do

Hey what you wanna do?
What you wanna do if a mirror showed your heart?
Would I see another life?
Would I make the run turn right?
Don't wanna be another's clock
But I fell in love with all
All your bullshit and your charm

You were changing faces, switching like a dream at night
You can't even tell the truth to save your fuckin life
Would've gave my life for you, would've paid the price
When wagered all for you I never thought I'd die

Now who's in your army?
Instead of shooting from the flame

Now you're crying softly
You can see the bullets in the air
Wanted you to love me
But you never seem to care

Warfaire (warfaire)
All good (all good)
Right here, what you wanna do
Warfaire
All good (all good)
Right here, what you wanna do
You wanna do

Hey, what you wanna do?
