

## A Voice in the Night

Dawnless

I saw her shadow  
Feading behind the trees  
Was it real ? I wonder woh she is  
My legs seem to be short  
Should I run after her ?  
I know I can 't but I'm still tryin'

She's gone! she wasn't real!  
Just a vision made to lead me here

The darness is everywhere  
And I can feel it all around me  
Pease help!! I ask for help!!!  
Where did I fall? Is it hell?

For me the raoad is close  
Trapped in a wicked game  
I kneel down crying oh where did I fail?  
From the ground I hear a voice in the Night

You are mine and now cursed be the light

The darkness left me right here  
The day is bright and it's warm again  
The dark can't take my heart  
Ans now alone I remain.
