

# Absolution

Dawnless

Playing with vengeance as with fire  
Fire that burns our hands  
Using our hate as a fuel  
But we can't control where it might spread

No clear sight  
You wander lost, naked and blind  
Under a sky that sees all

Now see what you have done  
Your sins will haunt you till the end of time  
Sit down with us now  
And hear what we've all done  
Don't fear  
Your sin's will be gone forever  
Forever

May they be good or bad  
All got the power to win upon their sins

Now see what you have done  
Your sins will haunt you till the end of time  
Sit down with us now  
And hear what we've all done  
Don't fear  
Your sin's will be gone forever  
Forever

Just say sorry!

Stand up for your life and..  
Fight for what you choose  
Stop asking if you right  
What have you got to lose?

There's no hiding  
No clear sight  
Head low you wander lost  
Naked and blind  
Torn, stuck under a sky that sees all

May they be good or bad  
All got the power to win upon their sins

Now see what you have done  
Your sins will haunt you till the end of time  
Sit down with us now  
And hear what we've all done  
Don't fear  
Your sin's will be gone forever  
Forever
