

## Shadow and Pain

Dawnless

Until you get caught  
You're sleeping tight, you laugh, you play  
You'd never imagine what could hide in corners

Now you smile but who can tell  
If it will last and until when  
Don't you know how this could end  
'Cuz of the madness of our race

Men lost their minds  
When children's dreams turn to nightmares  
Horrors of our time  
It's worse that if they were dead

You're nowhere to be found  
Maybe you're somewhere underground  
Locked in a cell

Only shadow and pain

We're all lookin' for you...

But as each time it's all in vain

What a child has to go through...

'Cuz of the madness of our race

Men lost their minds  
When children's dreams turn to nightmares  
Horrors of our time  
It's worse that if they were dead
