

White Risk

Dawnless

Reaching higher
But careful to where
'Cuz the higher you get
The higher you fall
And it might hurt

Powder
It's what we all seek
The pleasure to float

Powder
Once you taste it
It never lets go
Go ... Go!!!

Gotta draw your tracks
Draw your tracks
First on top, not the last!
Hurry!
Don't look back!
Draw your tracks
Just draw your tracks
Wish this kind of day
Would never end

Bad tongues
They only say
What you shouldn't do

Bad tongues
I guess they're all right
But they are all jealous

Gotta draw your tracks
Draw your tracks
First on top, not the last
Hurry!
Don't look back!
Draw your tracks

Just draw your tracks
Wish this kind of day
Would never end

Maybe you feel that you have
Mastered the mountain
Well I'd say that you were a guest
You should be grateful
Take it for granted

White risk ends it all
This next turn could be your last
Watch out!
The white gold will be your end
If you don't think twice!

Draw your tracks

Draw your tracks
First on top, not the last!
Hurry!
Don't look back!
Draw your tracks
Just draw your tracks
Wish this kind of day
Would never end
