## **Awaiting The Night**

Dawnrider

High on the top of the mountain I look in eternal sky I seek for magic desire My master said I must here inside Where can I find what I search for? I close my eyes and feel the ancient Now I can feel what I aimed for No more despair and no more inner lies

I feel the magic I know that the secret was sealed I see my fate now Now my own world is revealed and I am their child

I'M AWAITING THE NIGHT I'M AWAITING THE NIGHT I'M AWAITING THE NIGHT
