

Lately

Day of Fire

Stealing time feelin I'm burnin the day, torn with everything t
hat I've thrown away
Waiting for the sun I burn through the gray with my song.

Need You, I feed you...

It's time to forget about all the things you've been thinking a
bout Lately
Lately, it's been a roller coaster a thousand reasons why
It's time to forget about all the lies that are making your hea
rt angry
Angry at all the ones who said you would never ever fly... Fly

Cut and Move feel the groove of the day, pushin through the pai
n till it goes away yeah...
Memories cutting like a razor blade, pushin though the pain til
l it fades away yeah...

I Bleed You...

It's time to forget about all the things you've been thinking a
bout Lately
Lately, it's been a roller coaster a thousand reasons why
It's time to forget about all the lies that are making your hea
rt angry
Angry at all the ones who said you would never ever fly... Fly

Wings take this heart of mine for a ride, through the sky
Wings take this heart for a ride through the sky... Yeah Yeah!
