

Light 'Em Up

Day of Fire

Never look back never let it go.
Do the graveyard dance at the midnight show
Beggin for the chance, got my finger on the trigger
Gonna make a bigger bang baby make it bigger
Burden in my hands burnin up the road you know

That I feel alive, in overdrive

On and on and on we go...
(Put it on the line cause I'm going all the way)
Light 'em up throw it down and let it roll
(Put it on the line cause I'm going all the way)

A Black sheep momma but I keep the faith
A super natural born thriller of the human race
Got a light in my pocket and a hand upon the wheel
Kick it into overdrive for the over kill
Four barrel Holley pedal to the steel for real.

You know I feel alive in overdrive
