

# Got Me Going

DAY26

There's no other love  
There's nobody else thinking of  
Only you baby you special how could I ever forget you  
And let the moment slip away  
We've been here for awhile  
And I just wanna take you away  
You got me doing things I'd never do  
I can't stop feignin and dreaming about you  
And about your love it feels so real to me  
You know what to say and you know just what to do  
Come get me

What you got for me  
I wanna see  
I've been waiting way to long  
(Got me loosing my cool)  
Don't know what I'm gon do  
You got me going  
You got me going hey

I cant wait no longer  
My anxiety is building up  
Moments turn into hours and hours to days in my mind  
Can someone tell me the time?  
I don't wanna wait in vain  
And I don't wanna deal with this pain  
You got me doing things I'd never do  
I can't stop feignin and dreaming about you  
And about your love it feels so real to me  
You know what to say and you know just what to do  
Come get me

So beautiful (So beautiful)  
Wont you let go (Wont you let go)  
I wanna know see I gotta know if your ready (I've gotta know)  
For a moment so special (Baby I don't think your ready)  
And I'll pull you closer I don't wanna let you go  
Just let me be  
Be all that you need  
You got that thing that I want and I'm ready  
Ready to give you my love  
You already know it  
Girl you got me going  
Come get me

Know what I want from you  
So what you got baby  
You know I wanna see  
What you can do with me  
Girl if you only knew  
The things that we can do  
I'm ready to receive  
Just what you got for me
