

## Stadium Music

DAY26

Stage set, lights on  
Now play that intro, let me check my microphone  
It's bangin', so strong  
You wave your hands in the air as you sing along

That's how my love will make you feel, feel  
Put your body front in center for real, for real  
So let it stay right there, don't go no where  
Ain't no other show, can't even compare no no

Like stadium music,  
Put your whole body through it  
We got it all, flashing lights, big screens, fireworks, video screens  
Ain't nobody on this stage but me  
My love is like stadium music  
Put your whole body through it  
We got it all, flashing lights, big screens, fireworks, video screens  
Ain't nobody on this stage but me  
My love is like

Round 2, second set  
I'm a pro so I ain't lost my breath, yeah  
I save the best part for your favorite song  
And when we get there I'm a do it all night long

That's how my love will make you feel, feel  
Put your body front in center; for real, for real  
So let it stay right there, don't go no where  
Ain't no other show, won't even compare no no

My love is like stadium music  
Put your whole body through it  
We got it all, flashing lights, big screens, fireworks, video screens  
Ain't nobody on this stage but me  
My love is like stadium music  
Put your whole body through it  
We got it all, flashing lights, big screens, fireworks, video screens  
Ain't nobody on this stage but me  
My love is like

Part of the show (I'm a need your full participation)  
Baby I'm a take your body away (like we on vacation)  
I'm on a mission, don't be afraid to lose control  
No inhibitions, baby just let your body come with me (Come on, come on)  
So let your body go (Come on, come on)  
Better stay right there, don't go no where  
There's no other show, can't even compare

My love is like stadium music (stadium music)  
Put your whole body through it (put your whole body to it)  
We got it all, flashing lights, big screens, fireworks, video screens  
Ain't nobody on this stage but me  
My love is like stadium music (oh oh yeah)  
Put your whole body through it (oh oh, oh oh)  
We got it all, flashing lights, big screens, fireworks, video screens  
Ain't nobody on this stage but me

My love is like...

[Music plays all the way to the end]
