

# What It Feels Like

DAY26

Summer nights on the beach  
Underneath the rain drops  
Wind blowin' through ya hair  
This is what it feels like

Rose petals in the tub  
Listenin' to your favorite song  
Everytime our bodies touch  
This is what it feels like

Any place that you wanna explore  
Im down and im assuming that you  
Already know what pleases me

I think im bout to lose it  
Just watchin you move it real slow  
Dont let it go

No need to speed up the pace  
I can replace the best you had  
And redefine what passion is  
Got me feeling all kinds of way  
You know i cant wait anymore  
Baby when im with you its like
