## **Dreaming Of Breathing**

## **Daylight Dies**

Hollow Bereft of heart Time hemorrhaging Bleeding Torn apart Soul atrophied The fires That forged our souls The embers have gone dark

Our eyes so blind we can't see Our minds die as our souls weep The life choked out by the hand that feeds

A final knife In the back The wound Straight through the heart

Our eyes so blind we can't see Our minds die as our souls weep The life choked out by the hand that feeds The air so thin we can't breathe Our souls decay as our minds sleep Our backs broken by the hands that feed
