

Being A Part Of You

Days Away

This could be called invisible
Cause there isn't something for us to hold
But I would do anything, anything that you make me
I am here for you

Something about me being a part of you
We move together hand in my hand

Too much for them, nothing for me
I don't want this, i don't have plans for us
I would do anything anything that you make me
I am here for you

Something about me being a part of you
We move together, hand in my hand
something about me being a part of you
We move together, hand in my hand

Something about me being a part of you
We move together, hand in my hand
Something about me being a part of you
We move together...
