

Wish

Days Away

We can try to get out the web we have around us
If you don't want me to leave
If we're tangled we'll try to get out of the web we
have around us
If you don't want me to leave

I'm only staying if you belong to me
And if theres no more suffering
We've already tried this but we were younger then
Can you push from your memory and let me begin

So we can try to get out of the web we have around us
If you don't want me to leave

I'm only staying if you belong to me
And if theres no more jealousy
It's the same old story on a different day
You think your close enough to love me
Then you change your mind

We can try to get out the web we have around us
If you don't want me to leave
If we're tangled we'll try to get out of the web we
have around us
If you don't want me to leave

Get out of here, move on
Get out of here, before i break and start thinking
happy isn't everything
I don't want nothing, no i don't want nothing
Break, start thinking happy isn't everything
And you don't want nothing else
