

# What Up

Daz Dillinger

What up, what up, what up  
What up, what up, what up  
What up, what up, what up

Niggas in the street with my name in they motherfucking mouth  
Like I won't get at you  
See what the fuck you really all about  
Stop that, don't talk less you with it  
Money on my mind so I guess I gotta get it  
Grimo, grind like a nigga never seen  
Get between my grind and my face get mean  
Do what you never seen, got a big lawyer to ride with the team  
My life like a movie, I done been through the struggles  
Sitting in one room, all tryna bubble  
Coming like a player, like a nigga from the huddle  
With the pass on the double  
'Cause these are money making moves, see how I live  
...ain't worried about nothing like French Montana  
I'm a G like this, on and off camera  
Shooting at you nigga when they hitting with the glamor  
Hard and the pain gets real in the field...

Call the shots, street hot  
Bucks move, I'm the king of the block  
Never gonna stop, Bigie on the spot  
Snoop Dogg, nigga, trap it like it's hot

I'm always gonna be real, I'm never gonna change  
That mean what I'm doing, I'm doing every damn day  
A million for the rally, and y'all can't pay  
Ain't doing for it, in the ghetto now

What up, what up, what up  
What up, what up, what up  
What up, what up, what up

Yeah, really happening  
With the chopper over...  
Ain't nobody fucking with this shit, I'm the captain  
And I'm sick of these...I Instagram these pussy niggas and get they license  
I'm the king of the concrete...  
Everything I do is amazing, I put them in shock  
I don't pull up in a Bugatti, I pull up to drop  
I ain't gonna pull up and talk, I'll pull up and pot  
...

What up, what up, what up  
What up, what up, what up  
What up, what up, what up

Get it, like a visit to the principal's office  
Get up, look at how I get up  
Standing in our way, maybe you can sit down  
'Cause this that shit that goes down...  
And even when you wanna hate me I'm not grieving  
I'm a beast...never run away, never see me retreating

I ain't never got a hold on the controller  
...took it to another level, now the game over

What up, what up, what up  
What up, what up, what up  
What up, what up, what up
