

## Be My Lover

Daze

I wanna take you out of my dreams and put you into my life,  
Be my lover,  
Nothings like a dream from the heart, lets never part,  
(Be my lover)

Never wanna live my life alone,  
I'm searching through my heart,  
Allways looking for the one.  
I wanna make you and take you I have to the place I love,  
Ooh come on baby, ooh come on baby its love.  
(Be my lover)

Dont be afraid of what you feel,  
Just take a look at me,  
Can you see that I'm for real.  
I wanna make you and take you I have to the place I love,  
Ooh come on baby, ooh come on baby it's love.
