

## Chance

DC Talk

People watching, every life a mystery  
Sunny faces, but you know the stories incomplete  
Satisfaction, seems a million miles away  
So I'm moving to another state of mind  
I'm believing there's no better place or better time

Everyday we live, there's a chance to give  
Every time we speak, there's a chance for peace  
Everyday we live, there's a chance

Little sister, put aside your fear and breath  
In the secret, do you hear the voice of heaven (sayin')  
Come together, hope is stronger than it seems  
Where your standing there's no running out on love  
Only human, but you've set your eyes on the things above

Everyday we live, there's a chance to give  
Every time we speak, there's a chance for peace  
Everyday we live, there's a chance

A chance for you, a chance for me  
A chance to serve, in a time of need  
A chance to live, a chance to tell  
A chance to lose yourself (for somebody else)
