Sugarcoat It

Movin' at the speed of sound There has never been a lull in the motion Conversations swirled around Strangers questioning their devotion Welcome to the world of talk shows Where everybody seems to know

People talk and never listen Come to their conclusions So we'll feed 'em with the spoon That makes the medicine go down

Baby, you got it, baby, we wrote it Maybe you thought that we sugarcoat it Ain't gonna hide it, gotta expose it Yeah, we're gonna let our light shine

Standing on the stage of life We are waiting for the final curtain You can take a seat and watch tonight But you're gonna get more than you came for

Bam and welcome to our jam Where folks are getting down The Jesus freaks from Every part of this here town

You can try and ask us why We came to this solution Though words may fly You can't deny It's in the air tonight

Baby, you got it, baby, we wrote it Maybe you thought that we sugarcoat it Ain't gonna hide it, gotta expose it Yeah, we're gonna let our light shine

Baby, you got it, baby, we wrote it Maybe you thought that we sugarcoat it Ain't gonna hide it, gotta expose it Yeah, we're gonna let our light shine Let our light shine, let our light shine Let us shine, let us shine

Boom, they thought we'd change our tune They thought that we'd go bust They thought we'd crumble Like my grandma's flaky crust

Kapow, up in the here and now The truth is screaming big A light so bright whether day or night It can't be hid

Baby, baby, you got it, Baby, we wrote it, ain't gonna hide it Yeah, we're gonna let our love light shine

Baby, you got it, baby, we wrote it Maybe you thought that we sugarcoat it Ain't gonna hide it, gotta expose it Yeah, we're gonna let our light shine

Let your love shine, let your love shine Let your love shine, let your love light shine Your love light shine

Let your love shine, let your love shine Let your love shine, let your love light shine Sugarcoat it
