

## Anywhere

De/Vision

When I'm lonely  
Deep inside  
A defending hand  
Takes me to a friend  
When I'm falling  
Asleep to dream  
Of a naked dawn  
Something keeps me warm

I feel better now  
That you are so close to me  
You make me high  
Anywhere  
I can taste the joy  
When I feel so close to you  
You make me high  
Anywhere

When I'm leaving  
That safe place  
Someone knows my way  
In the deepest grey  
And when I'm missing  
Your safe home  
I know I'm secure  
Everything's so pure

I feel better now  
That you are so close to me  
You make me high  
Anywhere  
I can taste the joy  
When I feel so close to you  
You make me high  
Anywhere
