

## Deliver Me

De/Vision

Listen to the night  
Take delight in this tune  
A symphony of cries  
Howling at the moon

Illuminate the wide  
Hugeness of my heart  
The corridor inside  
I surely have to walk

Deliver me tonight  
And please don't ever let me go  
Heaven has arrived  
But don't let anybody know  
You're water to my seeds  
I think I felt something alive  
Answer to my needs  
And heaven knows it will be right
