Free From Cares

Improbity In each word we say Mendacity We pretend to pray

Perfidious The words of Jesus And anytime We end up smashed to pieces

Ingratitude In a world of lies We are free from cares We close our eyes

I assume There is no healer To heal this world To make us cleaner

I assume...

Free from cares

Hypocrisy We show each day Leads into darkness We go insane

Understandably We are of no account We jeer the creatures That we once found

It's tenderness We are living on So it's no wonder That we're all gone **De/Vision**
