

## See What I See

De/Vision

All people are born alike  
Most people get terrified when it comes to sacrifice  
Blind on the mind's eye  
All people are born alike  
Some people may decide not to be on your side  
Blind on the mind's eye

I'm in control  
I need no-one  
Not to tell me how I feel  
How does it feel now?

I've never been good company  
My hallucinations comfort me  
If only you  
If you could see what I see  
There ain't no doubt  
It's plain to see  
I'm bound by your biology  
If only you  
If you could see what I see
