

## The End

De/Vision

I'm unimpressed by everything you do  
You make me sick  
I never wanna feel like you

Your hollow words  
Opinions all cold & dry(?)  
I know it hurts  
But sometimes reality bites

You are the end, You are the end,  
You are the end I'm the begining,  
You are the end, You are the end,  
You are the end  
I'm the begining and You are the end

You make me puke  
I can't stand your stupid face  
Your sideless lies  
Your touch like there's cold embrace

You are the end, You are the end,  
You are the end I'm the begining,  
You are the end, You are the end,  
You are the end  
I'm the begining and You are the end
