The End

De/Vision

I'm unimpressed by everything you do You make me sick I never wanna feel like you

Your hollow words Opinions all cold & dry(?) I know it hurts But sometimes reality bites

You are the end, You are the end, You are the end I'm the begining, You are the end, You are the end, You are the end I'm the begining and You are the end

You make me puke I can't stand your stupid face Your sideless lies Your touch like there's cold embrace

You are the end, You are the end, You are the end I'm the begining, You are the end, You are the end, You are the end I'm the begining and You are the end
