

# The Way You Treat Me

De/Vision

I'm alone  
I try to understand why you go  
Please take me in your arms tonight  
To hear your breath  
And hold me tight

And I go  
To the place I should ignore  
Believe me  
Please  
And come once more  
To touch your breast  
In the dark night

My latent dreams  
I wish you were here  
I feel the heat  
In my hands again

The time had come  
The game began  
I payed for love  
And we had fun  
The night was long  
Her face so bright  
Her voice so strong  
She holds me tight

You say  
You'll never leave me  
You say  
You'll always need me  
And the way you treat me  
Is acceptable
