

## Time

De/Vision

Time, time changes everything  
time heals all your wounds  
a broken heart will heal

Time, time changes every thought  
time changes every point of view  
you will see things in a different light

Fears, will be forgotten soon  
will be forgotten totally  
your mind will be cleaned up

You will see the sun again  
You will feel it's warmth again  
Smiling people in the crowd  
Talking to you, hear their sound

Time, time changes everyone  
time changes even friend and foe  
you will see them from a different side

Tears, will sweep away real soon  
will wash away your misery  
your sigh will fade away
