

Until The End Of Time

De/Vision

Break with the past
This time I will make it last
Your love is free
Waste your precious youth on me

Until the end of time
Until the end of time
Until the end of time
Until the end of time

Until the clocks stop turning
Until the stars fall into the sea
Until the walls come tumbling down
Until we all die in misery

Until the sky is burning
Until the dawn of eternity
We will be forever
There is always you and me

This is how it ends
Erase your whole existence
Go down with me
Waste your precious life on me

Until the end of time
'Til the end of time
Until the end of time
'Til the end of time

Until the world is ending
Until all thoughts are history
Until we stop pretending
Until the ignorant can finally see

Until we'll meet in the next life
Until whatever will be will be
We will live forever
There is always you and me
