

Angel And Mercedes

Deacon Blue

I'm getting into space man
Everything is going up
And no one is going
Down where I'm going
And I'm getting better
At knowing what's outside looking in

Cause I
Never saw what was coming round
And I
Could never get my feet off of the ground

Gonna be a space man
I'm working on a space stand
Talking on the radio
How I'm not coming back man
Bursting all the clouds now
Looking how the world looks small

And I never saw how far there was to fall
And I am floating here far above it all

Cause Angel and Mercedes
Took me where heaven is
Angel and Mercedes
Took me where heaven is

I'm getting into space man
Everything is going up
And no one is going
Down where I'm going
I've been into losing
When I could have been
Only choosing you

And I am far from the
World I used to know
And you can see me only
When I come out into view

Cause Angel and Mercedes
Took me where heaven is
Angel and Mercedes
Took me where heaven is
