

Bigger Than Dynamite

Deacon Blue

Bigger than a ball of fire
Wider than the western sky
That's the way that you describe
The height and depth of our desire
Bigger than the night
That got me into this
We're still confused - oh yeah

When we get it, it's gonna be bigger than dynamite
Brighter than the Brooklyn Bridge at night
Higher than a spinning satellite that tracks our every move
It's gonna be bigger than dynamite
Brighter than the Brooklyn Bridge at night
Higher than a spinning satellite that tracks our every move

Longer than a five day march
Tougher than the Marble Arch
More deadly than a poison dart
Madder than the queen of hearts
Though love is hard
We're gonna break it some day
See our reward - oh yeah

When we get it, it's gonna be bigger than dynamite
Brighter than the Brooklyn Bridge at night
Higher than a spinning satellite that tracks our every move
It's gonna be bigger than dynamite
Brighter than the Brooklyn Bridge at night
Higher than a spinning satellite that tracks our every move

Don't tell me love is strong
Don't tell me love is strange
I've still got blood on my hands
Trying to put my heart back from where it came

When we get it, it's gonna be bigger than dynamite
Brighter than the Brooklyn Bridge at night
Higher than a spinning satellite that tracks our every move
It's gonna be bigger than dynamite
Brighter than the Brooklyn Bridge at night
Higher than a spinning satellite that tracks our every move
It's gonna be bigger than dynamite
Brighter than the Brooklyn Bridge at night
Higher than a spinning satellite that tracks our every move
It's gonna be bigger than dynamite
Brighter than the Brooklyn Bridge at night
Higher than a spinning satellite that tracks our every move
It's gonna be bigger than dynamite
Brighter than the Brooklyn Bridge at night
Higher than a spinning satellite that tracks our every move
