

Don't Look Back

Deacon Blue

Billy can you see the light?
Can you feel the sun
Waiting to shine on you?

Oh Billy here comes the night
Here comes the walls
Ready to fall on you

So don't look back that's all right
Don't look back until the morning light
Don't look back to hear the noise
Don't look back
Until the madness turns to joy

Candy can you feel the pain?
Can you feel the same love you had?

Oh candy you're running from the old
Running to the new
Let me run with you

I stand alone
It happened so long ago
The shape of a skull
It happened so long ago
Beneath the cross
It happened so long ago
I saw my reflection
