

# Hippy Girl

Deacon Blue

Hippy girl  
Please don't change a thing  
Change isn't everything  
And dreaming is something - hippy girl

There's a curse in this world  
That money brings  
And a big idea  
That fame is everything  
You're far and away now  
Richer than kings and queens  
You know love  
And you give everyone

Hippy girl  
Please don't change a thing  
Wear your hat girl and your friendship rings  
Hippy girl  
Blue-eyes-sallow-skin  
You look ahead now  
Not at fashions whims - hippy girl

You're from a different planet  
That must be tough to leave  
The planet of mercy  
The planet of make-believe  
One day I took you  
To a castle so high  
We got through the bridge  
You said this is the happiest day  
Of my life

Hippy girl please don't change a thing  
Change isn't everything  
And dreaming is something hippy girl

I'm away with your  
I'm away in your  
I'm away to your world

I'm away with your  
I'm away in your  
I'm away to your world

Hippy girl  
Jump on into the pool  
Don't let anyone tell you  
You need rules  
Hippy girl  
I'll smoke your pipe  
Of peace outside your tent  
We'll watch the smoke rings go  
Up in the wind - hippy girl  
Up and into this wind - hippy girl
