

## Meteors

Deacon Blue

Had a friend in Fowlis  
We'd stay up all night and talk it out  
We'd never worry about things  
We shouldn't worry about

Like the cold dark river  
Currents running so deep you can't see  
How far down we'd be  
Before they pulled us out

Oh, the toughest test  
Is not the way we came into the world  
Or the way it ends  
Yes, our toughest test  
Is what lies between and what we do  
With the time we get

This world is beautiful  
It's full of beautiful things  
Tall trees and meadows and birds that sing

Oh, the toughest test  
Is not the way we came into the world  
Or the way it ends  
Yes, our toughest test  
Is what lies between and what we do  
With the time we get

There's a hole in the middle  
We've gotta work out how we're gonna fill it in

Oh, the toughest test  
Is not the way we came into the world  
Or the way it ends  
Yes, our toughest test  
Is what lies between and what we do  
With the time we get
