

# Queen Of The New Year

Deacon Blue

You're so young  
And you know so much  
Heaven help us all  
From the tales you tell

You're so old  
And innocent as hell  
How I love your questions  
You Queen of the New Year

Oh you're so young  
And you know so much  
And my mind's not made up  
About the way forward

And now my heart  
You know these things  
My name for you  
Is Queen of the New Year

All the stars in heaven go dim  
To the lights on me and him  
All the stars in heaven are proud  
As the lights on us go out

Now I'm telling you this  
In a difficult year  
You know your mother  
She gave me problems

What am I gonna do  
With your honest heart  
The champion of love  
The Queen of the New Year

All the stars in heaven go dim  
All the stars in heaven go dim  
All the stars in heaven go dim  
All the stars in heaven go dim  
All the stars in heaven go dim  
To the champion of love  
The Queen of the New Year
