

## Infinity x Infinity

Dead by April

At night I'm thinking of sweet revenge  
I'm breathing faster, faster  
I feel the anger, anger  
I'll redefine the meaning of evil  
Inside I'm bleeding, bleeding  
From all the beating, beating

Let them pay  
Let them pay for the things they've done  
Let them suffer  
For infinity times infinity

Watch closely and you'll see it in my face  
The battle scars, battle scars  
The bloody tears, the bloody tears  
Too many years of built up suppressed hate  
It has taken its tool on me

Let them pay  
Let them pay for the things they've done  
Let them suffer  
For infinity times infinity

Don't speak your mind  
If the words that come out is condescending  
Don't even open your mouth  
If there's only bad intentions

It has taken its tool on me  
It has to stop  
Ask not for forgiveness  
Cause you will pay  
You will pay for the things that you did  
You will pay for infinity times infinity

Yeah  
Let them pay  
Let them pay  
For the things they've done  
Let them suffer  
For infinity times infinity
