YEAH, yeah

You feel the grass is always greener
And the tears I left behind
To know I can take my freedom
And my heart isn't next to line
With you the sun is always rising
When I'm with you it's never dark
With you the grounds are free from raining
With you my life doesn't fall apart

Yeah

I miss you more than ever
More than I can put to words
Every day is getting harder
To leave it all behind.
I am missing you, more than yesterday, I am missing you.

YEAH

We'll live a life filled with melodies Now the stories is my defriend When we fly free from promises I try to smile but I cant pretend, no

I miss you more than ever More than I can put to words

Every day is getting harder
To leave it all behind.
I am missing you, more than yesterday,
I am missing you, more than yesterday, yesterday, yesterday.
More than yesterday, yesterday, yesterday.

The sun is not getting lighter than yesterday As I ever get further from yesterday Can see the echo is closer, than yesterday As I ever get further from yesterday

Yesterday, yesterday, yesterday More than yesterday

I miss you more than ever
More than I can put to words
Every day is getting harder
To leave it all behind.
I am missing you, more than yesterday,
I am missing you, more than yesterday (yesterday)
Yesterday (yesterday)
Yesterday.
More than yesterday (yesterday)
Yesterday (yesterday), yesterday
