## **Autophagia**

## **Dead Infection**

I was left alone in a world with no God to take care. Where no cilivization is

known. Where to survive is the only aim. Twelve weeks with no f ood or water.

Yet I found a way out. With an enormous eagerness I watch my li mbs being

consumed. I see pieces of meat flowing down the ankles. I lose  $\ensuremath{\mathsf{my}}$  balance.  $\ensuremath{\mathsf{My}}$ 

legs are out of control. I masticate my fingers and spit nails out. My bowels  $% \left( 1\right) =\left( 1\right) +\left( 1$ 

tangle up in my mouth. Insuline streams down my chin. This is the end. My mind

gets no pain impulses any more.
