

## Start Human Slaughter

### Dead Infection

Start human slaughter till the very end,  
Blessing of bloody God comes to grief.  
In the dead of night helpless bodies  
Excrete their souls, it's a sin of life.  
Tumour of rancid minds,  
Ungrateful destiny,  
Defective form of life,  
Carbonized bones.  
Prayers of holy priests are a swinish stuff,  
Here comes the evil to take human flesh.  
Vomited out rotten remains, it's a question of the present days  
,  
Eclipse of moon has come, night of dead despair.  
Nobody lives, slaughter has come,  
Holy ghost takes their minds.  
Nobody has believed in this nightmare,  
It's time to start human slaughter.  
Crush your f\*\*king mind, you don't see your own face,  
Horror of your life is a sign of truth.
