

Lady Darkness waves her wand
Reality drinks lysergic acid
Makes em rally through tough times
Support your local steel
Positive idea works again
So they say positive idea works again
Its so much fun you're

Dying with a lampshade on
Dying with a lampshade on
Dying with a lampshade on
Dying with a lampshade on

Crawling little babies crying
Crawling with 5 dollar scandals
Cant believe little crawling babies
Weeping stems are growing
Provided in a twinkling of an eye
Cause they electrocuted you and lousy tinsel's back
So really you're

Dying with a lampshade on
Dying with a lampshade on
Dying with a lampshade on
Dying with a lampshade on

Walking backwards uptight feeling
Knowing somethings up and angels say
Just say such fun for fun's sake or
They say Jesus
And they tried to sell their coke
Jesus Christ like trying to pee backwards
Once they get some champagne bottles and you're

Dying with a lampshade on
Dying with a lampshade on
Dying with a lampshade on
Dying with a lampshade on

Lady Blackness swings her wand

Dying with a lampshade on (on)
Dying with a lampshade on (on)
Dying with a lampshade on (on)
