

## Burning Man

## Dead Letter Circus

Taste it on the main page, the vision of a burning hand,  
Up to the Sun, free not from the shadow  
Faces of the broken '  
I'm moving as they meet at the end  
We're not that one, free, not from the shadow  
How you got nighters, how you want more'  
They want brake us now  
Relieve it, give what they want '  
They won't brake us now'  
Relieve it, give what they want '  
They won't brake us now'  
Hands up, hands down, feet on the ground  
Taste it on the main page, the vision of a burning hand,  
Up to the Sun, free not from the shadow  
How you got nighters, how you want more'  
They want brake us now  
Relieve it, give what they want '  
They won't brake us now'  
If you just think in other way  
Will shine 'one vision, will define like another world  
You'll shine, will shine on different world,  
You'll shine'only if you trust, I'll be there,  
You'll shine'only if you trust, I'll be there,  
Standing right there for you
