

## One Step

## Dead Letter Circus

I hate when you come around  
I hate what I've become now  
I hate that we compromised  
Just to grow closer  
Say that you're gonna go  
See I can't take it anymore  
I just can't find a way  
I won't lie

One step away from here  
and just a moment to go

Is it ok if I close my eyes  
As we go further  
I want escape from the compromise  
As we come closer  
Say that you're gonna go  
See I can't take it anymore  
This is my escape  
One more lie

One step away from here  
and just a moment to go

It's just a moment  
One step away...

Just can't find a way
